STANDARD SECURITY COVER

Security Covers are used for transport of expensive products such as alcohol, tobacco, druggists' goods, and similar valuable items used in retail.

Our Security Covers will radically reduce opportunity theft and will enhance your "on trust" deliveries. In addition, your products will be shielded from dust and rain.

BENEFITS OF USING THE SECURITY COVERS

- Safeguards against theft
- Protects against moisture and dust
- Offers a reusable, environment-friendly solution, reducing the CO_2 footprint
- Saves money while eliminating the usage of stretch foil
- Saves time compared to applying many layers of stretch foil

TECHNICAL DATA/SPECIFICATIONS

Design:	Sack with a eyelet for using a security seal, transparent pocket for delivery documents
Dimensions:	Adaptable for any size of roll container
Weight:	Approximately 2,4 kg
Material:	One side PVC coated industrial textile fabric, UV protected, working temperature -25 to +70 °C.
How to use/apply:	Pull over the roll container, use the bottom security belt underneath of the roll container, apply security seal through the eyelet
